

AIR BLOXX®

GTABLX-K

Environmental Control Made Simple

Air-Bloxx® are a solution to seal openings in raised floors, especially odd size openings or mechanical and electrical piping on perimeters of raised floor areas. The Air-Bloxx® foam can also be used to seal under rack spaces or voids in any IT area that requires air leakage control. Air-Bloxx® come in 24" x 24" sheets which have been perforated into 1" cubes and tear away to the shape required. The material is flame retardant and can be used in conjunction with our plastic molded frames (GT006, GT007, GTABLX-K) to provide a finished solution (edge protection with Air-Bloxx® seal). Contact us for a free sample.

Sealing around cable openings offers the following benefits:

- Reduced air loss and increased under-floor static pressure
- Improved cooling efficiencies and extended cooling equipment life
- Dramatically reduced plant running costs. Over 50% of conditioned air does not get to the air intake of data room equipment due to unsealed openings
- Facilitates Cold / Hot aisle best practice

The Air-Bloxx® System is available in many options:

- GTABLX-K Kit maximum dimensions: 18" x 18"
- Kit Includes: (4) 8" x 8" corner frames (GT012) (1) Sheet Airbloxx Foam 18" x 18" & Mounting Hardware
- GTABLX Perforated foam sheet maximum dimensions: 24" x 24" x 2"
- Perforated foam sheet manufactured from fire rated high density foam
- GT006GK Dimensions: 4" x 6"
- GT007GK Dimensions: 4" x 4"

Custom Plastic Dist Inc. HAS BEEN SUPPLYING CABLE GROMMETS AND ACCESS FLOOR ACCESSORIES FOR OVER 15 YEARS.
OUR PRODUCTS ARE INSTALLED IN MANY PRESTIGIOUS PROJECTS AROUND THE WORLD.

ITEMS ARE AVAILABLE DIRECTLY FROM STOCK.
