

# ACCESS FLOOR CUTOUT SAFETY COVER

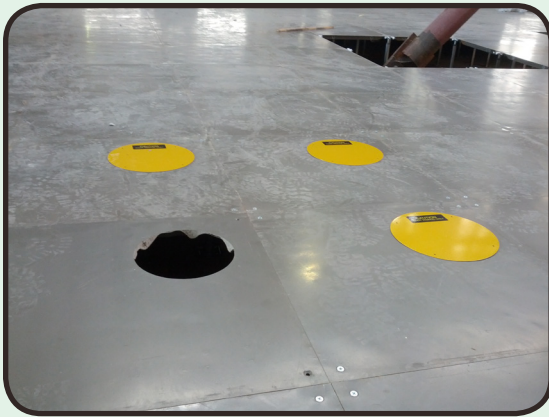

GTAD8-SC

Jobsite Safety Made Simple

\*Reusable

\*OSHA Standard Compliance

\*Efficient and Economical Solutions

## GTAD8-SC Grommet Hole Safety Cover

***Introducing! The simple solution for meeting OSHA standards!***

The GTAD8-SC is a new and improved solution for your raised access flooring needs. The safety cover offers reliable and reusable prevention of on-site accidents caused by pre-installation grommet and diffuser holes. The high visibility yellow, and sturdy manufacturing offer on-site safety for your workers, as well as quick installation and removal. The safety cover is designed to cover the pre-installation holes of any standard round grommet or air diffuser in Custom Plastic Distributor's product line. The unit provides an easy, economical, and effective solution to safety issues created by pre-cut holes in raised access flooring.

**Using the GTAD8-SC offers the following benefits:**

- Prevention of on-site accidents caused by openings in access flooring.
- Compliance with on-site OSHA safety standards.
- Simple and Quick installation with included self-tapping screws.
- Covers are affordable and reusable.
- Measures 10" diameter, 22 gauge steel.

Custom Plastic Distributors has supplied cable grommets and flooring accessories for over 15 years. Our products are installed in projects all around the world. All units are typically available from stock for immediate delivery.
