

FEATURES:

- ❑ Double layered EPDM gasket design interlocks around cables as they are passed through
- ❑ Frame manufactured from high strength flame retardant ABS construction
- ❑ Requires a 3" hole cut
- ❑ Split grommet can be installed after wires are run
- ❑ Maximum space for cable passage: 1 ½"
- ❑ Easy peel and stick application
- ❑ EPDM seal keeps cables neatly secured and prevents dirt and debris from passing through

USES:

- ❑ Hide unsightly cables, pass cables easily and esthetically between spaces
- ❑ Applications include walls ceilings and anywhere wires need to be passed
- ❑ Perfect for wall mounted TV's and other electronics
- ❑ A great option for both new construction and renovated spaces
